# How to Upgrade Ensign 10 to the latest Version

To upgrade the Ensign charting software to the most recent version do the following.

Click the 'Help' tab on the main ribbon, and then click the 'Upgrade Ensign' icon.

The software will automatically download a new version.

After downloading the new install file, the software will exit the program and you will be asked if you want to install the new version on your computer.

After clicking 'Yes' to allow the new install, it will automatically install and then rerun the program. With the new version you will then have all the latest features.

****

Note: Ensign Software makes frequent improvements and enhancements to the software. You are encouraged to upgrade the program when improvements and new versions are made available.

If you are wondering what version you currently have installed, you can view the software Version Date by doing the following.
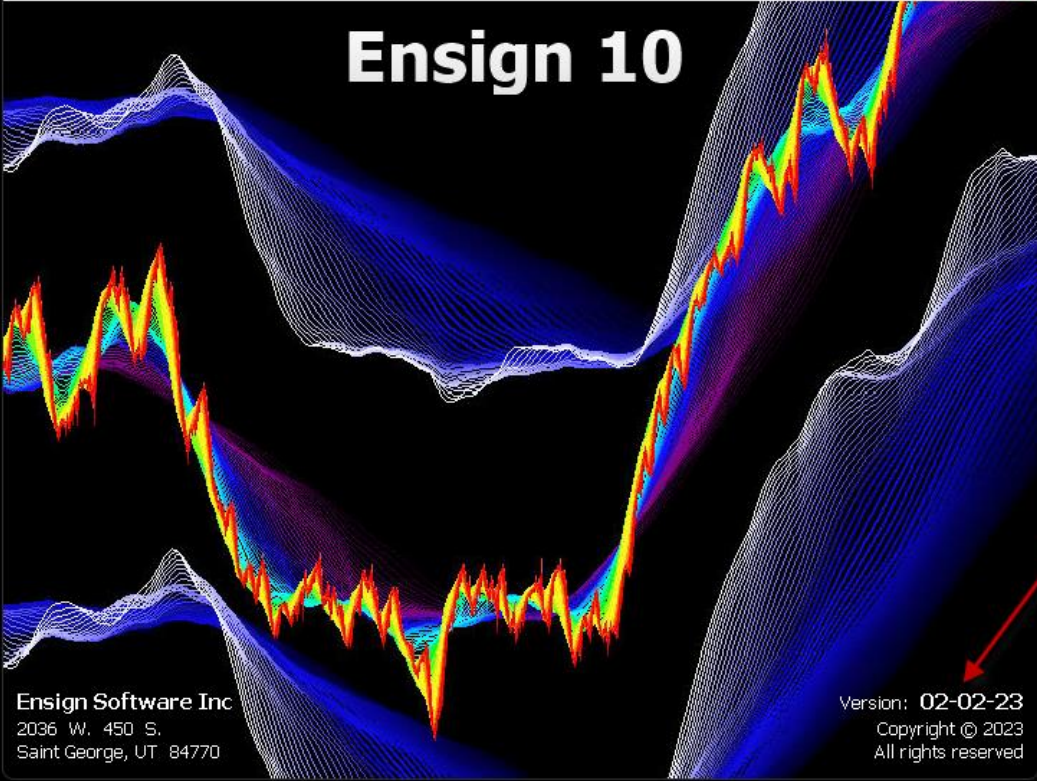

Click the 'Help' tab on the main ribbon, then click the 'About Ensign' icon. The current Version Date of the software is located at the bottom-right corner of the About Ensign screen.
